

Global Balanced Income Fund, a Sub-Fund of Calamatta Cuschieri Funds SICAV plc Class A (Accumulator) Investor Shares (ISIN: MT7000014445)

Managed by Calamatta Cuschieri Investment Management Limited, part of the Calamatta Cuschieri Group of companies

Objectives and Investment Policy

Objective: The Sub-Fund seeks to provide stable, long-term capital appreciation by investing primarily in a diversified portfolio of local and international bonds, equities and other income-generating assets.

Investment Policy: The Investment Manager (“We”) will adopt a flexible investment strategy which, amongst other things, will allow us to modify the asset allocation in line with our macroeconomic, investment and technical outlook.

We shall invest primarily in a diversified portfolio of listed transferable securities across a wide spectrum of industries and sectors primarily via bonds, equities and eligible ETFs. We may invest in these asset Classes either directly or indirectly through UCITS Funds and/ or eligible non UCITS Funds.

We intend to diversify the assets of the Sub-Fund broadly among countries, industries and sectors, but reserve the right to invest a substantial portion of the Sub-Fund’s assets in one or more countries (or regions) if economic and business conditions warrant such investments.

Investments in equity securities may include, but are not limited to, dividend-paying securities, equities, ETFs and preferred shares of global issuers. At our discretion, we may also invest indirectly in equities and equity-related instruments through the use of collective investment schemes. The Sub-Fund will generally, but not exclusively, invest in blue chip issuers listed on Approved Regulated Markets, including equities listed on the Malta Stock Exchange, where applicable.

We shall manage the credit risk and will aim to manage interest rate risk through credit analysis and credit diversity. We may invest in both investment grade (corporate and sovereign) and high yield bonds that have a credit rating of at least “B-” by S&P (or rating equivalent issued by other reputable rating agencies) at the time of investment, provided that the Sub-Fund may invest a maximum of 10% of its assets in non-rated debt securities, including those listed on the Malta Stock Exchange. We will, at all times, maintain an exposure to direct rated bonds, whether investment grade or high yield, of at least 25% of the value of the Sub-Fund.

For temporary or defensive purposes, the Sub-Fund may invest in short-term fixed income instruments, money market funds, cash and cash equivalents. The Sub-Fund may also hold cash and cash equivalents on an

ancillary basis or cash management purposes, pending investment in accordance with its Investment Policy and to meet operating expenses and redemption requests.

The Sub-Fund may invest in Real Estate Investment Trusts (“REITs”) via UCITS-eligible ETFs and/or CIS and securities related to real assets (including but not limited to real estate, agriculture, and precious metals-related securities) such as equities, bonds, and ETFs as well as CISs as long as these constitute eligible assets under the UCITS Directive.

The Sub-Fund may invest in options, futures and forwards for risk management and hedging purposes only (“Hedging Instruments”).

Other than any margins required for these Hedging Instruments, the Sub-Fund will not employ leverage.

Management Discretion: The Investment Manager has the discretion to buy and sell investments on behalf of the Sub-Fund within the limits of the Objective and Investment Policy.

Currency: The Shares in the Sub-Fund are denominated in Euro.

Buying and Selling Shares: You can buy and sell Class A (Accumulator) Investor Shares (this “Class”) on Tuesday of each week (or the next business day in Malta if it is a public holiday).

Distribution Policy: This Class is an accumulator Class so the income from investments held for the Class will not be paid out as dividends. Instead, income will be re-invested and reflected in the value of the Shares. The Directors however reserve the right to pay Dividends at any time if they consider that a payment of a Dividend is appropriate.

Long-term investment: You should consider Shares in the Sub-Fund as a long-term investment. Since Entry Charges (see below) are deducted from your subscription amount, if you sell your Shares before the price of the Shares increases / dividends are paid you may receive less than the amount invested.

Recommendation: This Sub-Fund may not be appropriate for investors who plan to withdraw their money within less than 3 years.

Risk & Reward Profile

1	2	3	4	5	6	7
---	---	---	---	---	---	---

The Sub-Fund’s rating reflects the nature of its expected investments and the corresponding risks to which the Sub-Fund is exposed. These risk factors, which include the risks listed to the right, may affect the value of the Sub-Fund’s investments or expose the Sub-Fund to losses.

Equities: The value of equities and related investments may fluctuate in response to the performance of individual companies and general market

The risk and reward indicator rates this Sub-Fund as category 4 meaning that the Sub-Fund offers a relatively high risk of making a loss but also a relatively greater chance of making gains. It should be noted that even the lowest category on the indicator does not mean that the Sub-Fund is risk-free.

The Sub-Fund’s rating is based on simulated data and therefore is not a reliable indication of the risk profile of the Sub-Fund. Furthermore, the rating shown is not guaranteed and may change over time.

Concentration & Emerging Markets: The Sub-Fund may be concentrated in a limited number of securities, industry sectors or countries (including emerging or developing markets) and as a result, may be more volatile than more broadly diversified funds or funds without exposure to emerging or developing markets.

REITs: Investing in REITs involves certain unique risks in addition to those risks associated with investing in the real estate industry in general. REITs

conditions.

Credit Risks: Bonds or other debt securities held by the Sub-Fund involve credit risk represented by the possibility of default by the issuer. Securities which are subordinated and/or have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated and/or unsubordinated securities. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities and any amounts paid on such securities. This may in turn affect the NAV per Share.

Charges and Expenses: Charges and expenses will be charged against capital, which may have the effect of constraining capital growth.
