A Specimen Redemption Notice, a Transfer Form and an Exchange of Shares Application Form will be provided upon request by the Administrator or by an Authorised Distributor.

### Sub-Fund Specific Liquidity Management Tools (“LMTs”)

For the purposes of the LMT framework described in the Prospectus, the Company on the advice of the Investment Manager has selected the following LMTs for the Sub-Fund (the “**Sub-Fund Specific LMTs**”):

- i. a redemption gate (the “**Redemption Gate**”); and
- ii. an Anti-Dilution Levy.

The Sub-Fund Specific LMTs may be activated, operated and deactivated in accordance with the LMT Policy of the Investment Manager, the Prospectus, this Offering Supplement and, where applicable, subject to such governance, oversight and approvals as may apply from time to time. The application of a Sub-Fund Specific LMT may affect investors’ ability to redeem Investor Shares, the timing of the processing of dealing requests and/or the timing of payment of redemption proceeds.

#### (i) Redemption Gate

The Directors may, on the advice of the Investment Manager, if justified having regard to the interests of the Sub-Fund and its Shareholders and in accordance with applicable law, determine to activate a Redemption Gate.

The Investment Manager may consider activating a Redemption Gate where the total net redemption requests received for a given Redemption Day exceeds five per cent (5%) of the Net Asset Value of the Sub-Fund calculated as at the relevant Valuation Point (the “**Activation Threshold**”).

For the purposes of this section:

- i. “net redemption requests” means the aggregate value of redemption requests received for the relevant Redemption Day less the aggregate value of subscription requests received for the same date, where applicable;
- ii. the relevant percentage shall be calculated by reference to the most recently available official Net Asset Value prior to the relevant Redemption Day.

Exceeding the Activation Threshold shall not automatically result in the activation of a Redemption Gate. The Investment Manager shall determine, having regard to the liquidity profile of the Sub-Fund’s assets, prevailing market conditions, expected cash flow and the best interests of the Shareholders, whether the activation of a Redemption Gate is necessary and proportionate as an LMT.

Upon activation of a Redemption Gate:

- a. redemption requests shall be executed on a pro rata basis for all Shareholders submitting valid redemption requests for the relevant Redemption Day;
- b. the aggregate value of redemption requests executed on that Redemption Day shall not exceed the redemption gate limit determined by the Directors, on the advice of the Investment Manager, for that Redemption Day, having regard to the liquidity profile of the Sub-Fund’s assets, prevailing market conditions, available liquidity and expected cash flows, and the need to ensure the fair treatment of Shareholders;
- c. all redemption requests shall be reduced proportionally so that each redeeming Shareholder has the same percentage of its redemption request executed.

The portion of any redemption request not executed as a result of the activation of the Redemption Gate (the “**Deferred Portion**”) shall automatically be carried forward to the next Redemption Day and shall be treated as a redemption request received in respect of the next Redemption Day.

The Deferred Portion shall be processed in priority to redemption requests received for that subsequent Redemption Day but shall remain subject to the possible application of a Redemption Gate on the subsequent Redemption Day if the Activation Threshold is again exceeded.

No new redemption notice shall be required in respect of the Deferred Portion.

The Redemption Gate shall be temporary in nature and shall be assessed and reviewed periodically by the Investment Manager to ensure that it remains necessary and proportionate in the best interests of Shareholders.

The Redemption Gate shall cease to apply where the Investment Manager determines that the circumstances justifying its activation no longer exist and that the Sub-Fund is able to meet redemption requests in an orderly manner without prejudicing the interests of remaining Shareholders.

The Redemption Gate shall be applied uniformly to all affected Shareholders and Share Classes for the relevant Redemption Day.

### (ii) Anti-Dilution Levy

The Directors may, on the advice of the Investment Manager apply an Anti-Dilution Levy in order to protect the Sub-Fund (and its Shareholders) from the dilution of the Sub-Fund's assets and/or performance that may result from the costs of dealing (including, for example, transaction costs, bid/offer spreads, taxes and market impact) arising from net subscriptions or net redemptions.

The Anti-Dilution Levy may be applied on subscriptions, on redemptions, or on both, where the Investment Manager determines that it is in the interests of Shareholders as a whole, including where there are significant net flows, stressed market conditions, elevated transaction costs and/or reduced market liquidity. It may be activated on a Dealing Day where:

- a. the aggregate amount of redemption orders exceeds the aggregate amount of subscription orders, resulting in net redemptions of more than ten per cent (10%) of the Net Asset Value of the Sub-Fund; or
- b. the aggregate amount of subscription orders exceeds the aggregate amount of redemption orders, resulting in net subscriptions of more than ten per cent (10%) of the Net Asset Value of the Sub-Fund.

In the case of net redemptions, the Anti-Dilution Levy shall be deducted from the amount paid to redeeming Investors. In the case of net subscriptions, the Anti-Dilution Levy shall be charged to subscribing investors.

The Anti-Dilution Levy shall be applied at a rate determined from time to time by the Investment Manager acting reasonably and in good faith, by reference to prevailing market conditions and the estimated dealing costs expected to be incurred by the Sub-Fund. The Anti-Dilution Levy shall not exceed one per cent (1%) of the relevant subscription or redemption amount (as applicable), calculated on the gross value of such subscription or redemption (before deduction of the Anti-Dilution Levy).

Any Anti-Dilution Levy applied shall be for the account of the Sub-Fund (and not for the benefit of the Investment Manager) and shall be retained within the Sub-Fund.

### Regulatory notification / reporting

Where applicable, the activation and/or deactivation of a Sub-Fund Specific LMT may give rise to regulatory notification or reporting requirements and the Company and/or the Investment Manager will comply with any such requirements as may apply from time to time.

### Other LMTs

The Sub-Fund may also make use of other LMTs as set out in the Prospectus under the section entitled "**Liquidity Management Tools**".

## Investment Restrictions

The general investment restrictions set out in the Prospectus under the section entitled "**Investment Objectives, Policies and Restrictions**" shall apply to the Sub-Fund.

## Pricing

The calculation of the NAV(s) of the Sub-Fund and of the NAV(s) per Share shall be effected by the Administrator on every Valuation Day and in such manner as is stated in the Prospectus under the section entitled "**Net Asset Value**".

**Calculation**". The Offering Price will be available from the Administrator and will be published on leading data provision sources such as Bloomberg.

For calculation purposes, the benchmark shall be the three (3)-month Euribor rate (the “Benchmark”) at the end of each Calculation Period (as defined below). Performance Fee will crystallise annually, upon which the Base NAV will be updated. Each accounting year will be a calculation period, except the first calculation period that will start on the first Business Day of the Initial Offering Period of the relevant Class of Investor Shares and end on the following 31 December (the “Calculation Period”). The Performance fee will be payable in arrears within 14 calendar days of the end of each Calculation Period. Please refer to table 1 below.

total assets. The Company has made a declaration to such effect in respect of the Sub-Fund and it is the Company's intention to maintain such a classification.

#### *Taxation of the Sub-Fund*

As a non-prescribed Fund, the Sub-Fund is exempt from Maltese income tax on any income and capital gains. Capital gains, dividends, interest and any other income from foreign securities held by the Sub-Fund may, however, be subject to tax imposed by the country of origin concerned and such taxes will not be recoverable by the Sub-Fund or by its Shareholders.

Fees chargeable to the Sub-Fund may also be subject to Value Added Tax ("VAT") in accordance with applicable law. If any VAT is charged, this will not be recoverable by the Sub-Fund.

#### *Taxation of Shareholders*

Capital gains realised by Shareholders who are not resident in Malta are not subject to tax in Malta. Capital gains realised by Malta resident Shareholders on a redemption, transfer to third parties or exchange of Investor Shares are treated as follows:

- (a) Malta resident Shareholders may opt to be subject to a fifteen per cent (15%) final withholding tax which shall be deducted at source by the Sub-Fund on any capital gains realised by Shareholders. Alternatively, Shareholders may opt to receive any capital gains without deduction of tax in which case they would be bound to declare such capital gains in their income tax return and would be subject to tax at their personal rate.
- (b) In case of transfers to third parties, the transferor is obliged to declare any capital gains in his income tax return and pay tax at his personal rate. Any capital gains on an eventual redemption will be calculated without reference to any intermediate transfer.
- (c) Capital gains arising from the exchange of shares from one sub-fund of the Company into another are only taxable when the new shares are eventually disposed of and, at that stage, any gains or losses arising from exchanges of shares will be taken into account in the computation of any taxable capital gains upon disposal.

The tax treatment of dividends distributed by the Sub-Fund, whether these are reinvested or otherwise, depends on the income tax status of the particular Investor and on the Sub-Fund's income tax accounts out of which the dividends are distributed as set out hereunder:

- (a) The distribution of profits from dividends received by the Sub-Fund out of the Maltese Taxed Account or the Foreign Income Account of other Maltese companies do not attract any further tax in the hands of Investors.
- (b) The distribution of other profits (including foreign sourced profits) to Malta resident Shareholders (other than companies), or to non-resident Shareholders (including non-resident companies) who are owned and controlled by, directly or indirectly, or who act on behalf of, persons who are ordinarily resident and domiciled in Malta, are subject to a fifteen per cent (15%) withholding tax. Shareholders are not required to declare such dividends in their income tax returns. However, they are entitled, depending on their personal circumstances, to declare such dividends in their income tax return and claim a credit of the fifteen per cent (15%) tax withheld.
